

EDUCATION

B.Tech, Computer Science

VIT University

2020 - 2024

CGPA: 9.30/10

Senior Secondary (XII), Science

Sri Chaitanya

(STATE board)

Year of completion: 2020

CGPA: 9.70/10

Secondary (X)

Kkr Gowtham

(STATE board)

Year of completion: 2018

CGPA: 9.80/10

TRAININGS

Python

udemy, Online

Jan 2021 - Jan 2021

PROJECTS

Chatting app

Jul 2022 - Sep 2022

https://github.com/chandra-kiran2002/whatsapp_clone_backend_2

This project is about a full stack chat web application something like what.I did this project using node js as backend, bootstrap for frontend and MySQL database.

Turtle road crossing game

Jan 2022 - Jan 2022

<https://github.com/chandra-kiran2002/road-crossing>

I done this project using python turtle graphics. Game is like a turtle has to cross a busy road. As a turtle completing levels the speed of the cars in the road will increase.

White blood cells classification (ML)

Nov 2021 - Nov 2021

I done this project using SVM algorithm. This model will classify the white blood cell which are of Five types.

Calculator using javafx.

Aug 2021 - Aug 2021

<https://github.com/chandra-kiran2002/calculator>

I done this project using javafx. This is a simple calculator for computing additions, subtractions, divisions and multiplications.

Digital - analog clock

Jun 2021 - Jun 2021

<https://github.com/chandra-kiran2002/Clock>.

I done this project using python turtle graphics. This application will show us both analog and digital time. If we want to set time we can set manually or it will directly sets using Time module.
